INTRODUCTION
CS 315 Intro to Web Design provides step-by-step process of creating a well-designed website. It emphasizes web design techniques resulting in fast-loading and well-placed graphics, cohesive color and typography across platforms and browsers, clear navigational interface, appropriate use of sound and video, and studio component where students analyze, design, and implement websites.

PRINT SOURCES
Books are important sources of basic information on a topic, providing necessary definitions, background information, and historical information. Books provide a foundation for research which can be supplemented by more current information from periodical articles. Books may also contain useful bibliographies which may lead to additional sources of research. When looking for books, use proper term(s) or subject term(s) under the Library Catalog: http://jaxcat.jsu.edu/vwebv/searchSubject
Featured subject term(s) for this course could be but not limited to:

<table>
<thead>
<tr>
<th>Web publishing</th>
<th>Web sites--Authoring programs</th>
<th>Internet programming</th>
</tr>
</thead>
<tbody>
<tr>
<td>Web sites--Design</td>
<td>Computer sound processing</td>
<td>Web typography</td>
</tr>
<tr>
<td>Web site development</td>
<td>Web 2.0</td>
<td>Web search engines</td>
</tr>
<tr>
<td>Webcasting</td>
<td>Internet videos</td>
<td>Semantic Web</td>
</tr>
</tbody>
</table>

Research Foundations Tutorial, which is designed to teach undergraduates fundamental research skills, covers the selection of appropriate information sources; effective searching of library databases and the Internet; and the location, evaluation and citation of information is available. JSU students can also use InterLibrary Loan Service. A list of computer labs on campus can be access here.

ELECTRONIC RESOURCES
The Library also provides numerous electronic resources such as e-books and databases for remote access. The following related databases can be accessed at: http://libguides.jsu.edu/computertech

<table>
<thead>
<tr>
<th>Database Title</th>
<th>Description</th>
<th>Full Text?</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACM Digital Library</td>
<td>Bibliographic, abstracts, and full-text articles since 1985.</td>
<td>Yes</td>
</tr>
<tr>
<td>EBSCO</td>
<td>Journal articles in all subject areas.</td>
<td>Yes</td>
</tr>
<tr>
<td>Gale Databases</td>
<td>Including Computer Database providing journal articles.</td>
<td>Yes</td>
</tr>
<tr>
<td>IEEE Computer Society</td>
<td>Journal articles in the computer science area.</td>
<td>Yes</td>
</tr>
<tr>

“GEM Finder” (previously called “Discovery”) (http://www.jsu.edu/library/index.html) allows you to search across library multiple databases at the same time. Title (including article title), author, subject could all be searched under “keyword” search option. “How to find books and journal articles in the Library: A step-by-step guide” can also be accessed here.
