INTRODUCTION
FCS 132 Culinary Science provides an introduction to the study of commercial food production including fundamental cooking techniques, knife and hand-tool skills, flavor affinities, and visually pleasing culinary presentations.

PRINT SOURCES
Books are important sources of basic information on a topic, providing necessary definitions, background information, and historical information. Books provide a foundation for research which can be supplemented by more current information from periodical articles. Books may also contain useful bibliographies which may lead to additional sources of research. When looking for books, use proper term(s) or subject term(s) under the Library Catalog: http://jaxcat.jsu.edu/vwebv/searchSubject
Featured subject term(s) for this course could be but not limited to:
- Food handling.
- Menus.
- Quantity cooking.
- Appetizers.
- Food -- safety measures
- Recipes
- Sauces.
- Baking.
- Food contamination.
- Carving (Meat, etc.)
- Cooking (Meat)
- Food presentation.
- Nutritionally induced diseases.
- Flavoring essences.
- Cooking (Vegetables)
- Garnishes (Cooking)
- Kitchen utensils.
- Dairy products.
- Salads.
- Cooking, French.
- Research Foundations Tutorial, which is designed to teach undergraduates fundamental research skills, covers the selection of appropriate information sources; effective searching of library databases and the Internet; and the location, evaluation and citation of information is available. JSU students can also use InterLibrary Loan Service. A list of computer labs on campus can be access here.

ELECTRONIC RESOURCES
The Library also provides numerous electronic resources such as electronic books and databases for remote access. The following related databases can be accessed at: http://libguides.jsu.edu/fcs
